TMP-200 Telemedicine Workstation

The lightweight TMP-200 telemedicine cart provides the ease of use and mobility required for patient care in a healthcare facility. The redesigned TMP-200 offers a slim profile and roll about design that offers the mobility needed to move through hallways and between patient rooms.

The TMP-200 telemedicine cart is designed to integrate with today's technology to provide the best experience for providers and patients. The large work surface provides ample space for a keyboard or needed medical equipment. The large pullout drawer provides quick access to needed supplies.

In addition, the TMP-200 supports a single display up to 37" or dual displays up to 32". Manually adjust the height of the VESA to accommodate the display by installing the mount using the pre-drilled holes. An video camera shelf installs above the display to provide video conferencing capabilities For Cisco Webex solutions, the AVTEQ DX80 mounting bracket easily installs the Webex DX80 board on the cart.

AVTEQ's telemedicine carts are easily cleaned using most commonly used hospital-grade, diluted, non-abrasive, and non-corrosive solutions including ammonia enzyme cleaners, hydrogen peroxide, bleach or alcohol solutions.
